The puzzle was originally popularized by Sam Loyd's The Eighth Book Of Tan, a fictitious history of the tangram, which claimed that the game was invented 4,000 years prior by a god named Tan. The book included 700 shapes, some of which are impossible to solve. The puzzle eventually reached England, where it became very fashionable. The craze quickly spread to other European countries.

A river crossing puzzle is a type of puzzle in which the object is to carry items from one river bank to another, usually in the fewest trips. The difficulty of the puzzle may arise from restrictions on which or how many items can be transported at the same time, or which or how many items may be safely left together. The setting may vary cosmetically, for example, by replacing the river by a ...
