CORRELATION AND REGRESSION / 47 CHAPTER EIGHT CORRELATION AND REGRESSION
Correlation and regression are statistical methods that are commonly used in the medical literature to compare two or more variables. Although frequently confused, they are quite different.

Repeated measures ANOVA is a common task for the data analyst. There are (at least) two ways of performing "repeated measures ANOVA" using R but none is really trivial, and each way has its own complication/pitfalls (explanation/solution to which I was usually able to find through searching in the R-help mailing list).

Repeated measures ANOVA with R (functions and tutorials)

IMS Health and Quintiles are now IQVIA. We are committed to providing solutions that enable healthcare companies to innovate with confidence, maximize opportunities and, ultimately, drive healthcare forward. We do this via breakthroughs in insights, technology, analytics and human intelligence that bring the advances in data science together with the possibilities of human science.

About Portable Document Format (PDF) Files What is a PDF file? A Portable Document Format (pdf) file is a self-contained cross-platform document. In plain language, it is a file that will look the same on the screen and in print, regardless of what kind of computer or printer someone is using and regardless of what software package was originally used to create it.
